Great American Smokeout

Tobacco is the leading preventable cause of death in the United States, causing more than 400,000 deaths each year and resulting in an annual cost of more than \$50 billion in direct medical costs. There's no better time to quit than the Great American Smokeout, Nov. 15. It's a day for every smoker who wants to or is even thinking about quitting to give a tobacco-free day a chance.

Several events are planned for the anti-smoking campaign. The Girl Scouts will be promoting smoke-free thinking at the commissaries, a Corps of Supporters will be out and about supporting and helping smokers who want to quit, teens will be educating and motivating elementary students to choose a smoke free life, community retirees will be encouraging each other and all community members to be smoke free and the health and dental clinic staff will be providing helpful information and support to all who visit.
